General Information

ELIGIBILITY

To be eligible for the award of the Higher School Certificate, students must:

- have gained the Record of School Achievement or such other qualifications as the NESA considers satisfactory;
- have attended a government school, an accredited non-government school, a school outside New South Wales recognised by NESA or a college of TAFE;
- have completed *HSC: All My Own Work* (or its equivalent);
- have satisfactorily completed courses that comprise the pattern of study required by NESA for the award of the Higher School Certificate; and
- sit for and make a serious attempt at the requisite Higher School Certificate examinations.

Note: Students undertaking only Stage 6 Life Skills courses are not required to complete the HSC: All My Own Work program or its equivalent.

WHAT IS ASSESSMENT?

- Assessment consists of a series of tasks which measure a student's achievement in a particular course. The NSW syllabuses state what students at each stage are expected to learn.
- The purpose of HSC assessment is to compare the achievement of all students within a course against the outcomes of the course and rank students accordingly.
- Assessment should include practical and performance work; research, assignments and essays; formal examinations and in class tests; oral presentations, seminars, and other relevant activities.

RULES YOU MUST KNOW

1. At the commencement of each course, each faculty is required to provide students with a list of all assessment tasks to be completed through the course and the value (weighting) of each task. The schedule issued at the beginning of Term 4 will indicate the week in which each task is due.
2. Students must be notified in writing of the details and specific due date (as well as any changes) of each assessment task, including examinations, a **minimum of 10 school days prior to the date** the task is due. Marking criteria and rubrics will be included with the task when it is issued.
3. Unless otherwise stated, any assessment task will be due by the end of the school day (3:18 pm) on the due date stated on the assessment task. On submission, a receipt will be issued confirming submission, signed by the class teacher or the faculty Head Teacher. In the event of dispute, the student must produce the receipt.
4. There is a **ONE week amnesty** from assessment tasks before examination periods.
5. Students who are absent on the day the class is notified of an assessment task are responsible for obtaining details from their teachers immediately on their return to school. They will be expected to complete the task on time, unless granted an extension by the Head Teacher of the relevant faculty. See the appendix for the extension request form. No request will generally be granted on or after the due date of the assessment task, except by the relevant faculty Head Teacher or the Principal, and only in extenuating circumstances.
6. The same or equivalent tasks will be undertaken by all students in a course, regardless of the class in which they are placed. Marking procedures will include consultation between teachers and double marking where appropriate.
7. Students will be provided their marked assessments, with feedback, no later than two weeks after submission.

STUDENT RESPONSIBILITIES

- You are expected to complete all assessment tasks by the stated due time and date.
- Some assessment tasks involve attendance at excursions or field studies. Attendance may be compulsory. Where financial hardship is a factor, please see the principal for assistance.
- All work submitted for assessment must be your own work. Any breach of this rule will result in a mark of zero.
- It is your responsibility to be aware of assessment task dates for all your courses and to organise your schedule accordingly.
- Assessment tasks must be submitted directly to, and receipted by, your class teacher or the Head Teacher of that course. See the appendix for the assessment task cover sheet.

WHAT DO I DO IF I MISS AN ASSESSMENT TASK?

1. If you fail to submit an assessment task when it is due without a valid reason supported by documentation, you will receive a mark of zero. You must not miss lessons to complete an assessment task.
2. It is your responsibility to ensure that you make several backup copies of your work. Technology failure is not a valid reason for late submission of a task.
3. It is your responsibility to print and submit a hard copy of your assessment task, unless otherwise required for a specific task.
4. If you are sick on the day when an assessment task is due, you must arrange, where possible, to submit the task by the task deadline.
5. Where you think there is a valid reason, such as serious illness, for missing a task or being unable to submit a task, you must:
 - a. Where possible, inform the school on the day of the task – phone or email the school and leave a message for your teacher or the Head Teacher of the relevant faculty.
 - b. Complete an Illness/Misadventure form (see appendix) and submit to the relevant teacher or Head Teacher immediately upon your return to school with supporting documentation, such as a medical certificate, to discuss your case.
N.B. Documentation submitted at a later date cannot generally be accepted.
 - c. Be prepared to complete the task (or an alternative task) at the earliest available time or if the task is a take-home task, hand it in with your documentation immediately upon your return to school.

If you do not follow the above procedure you will be awarded ZERO for the task, unless there are extenuating circumstances validated by the relevant Head Teacher or the Principal. Even if you receive zero, you must complete and submit the task to avoid an N award determination in the course. See page 5 for N award information.

If you do follow the above procedure and the reason for your absence is accepted, the choice of completing the original task, completing an alternative task or receiving an estimate for the task rests with the Head Teacher of the relevant faculty.

WHAT DO I DO IF I KNOW IN ADVANCE THAT I AM GOING TO MISS AN ASSESSMENT TASK?

Either hand in the assessment task before the absence or complete an Assessment Task Extension Application form and submit to the Head Teacher of the faculty. Documentation explaining the absence (as outlined above) will be required.

***** NESAS EXPECTS STUDENTS TO ATTEMPT ALL ASSESSMENT TASKS SET *****

Note:

- Minor illness or illness that would not physically prevent you from completing a task will generally not be considered a valid reason for missing a task even if there is a medical certificate. The medical certificate

needs to state that you were unfit to complete the specific task. It is your responsibility to bring this to the attention of your medical practitioner when you request a medical certificate.

- Overseas trips, extended holidays, dental appointments, meeting relatives and other similar reasons will not generally be accepted as a valid reason for failing to submit assessment tasks on the due date.
- A proven case of copying, plagiarism or cheating will result in a zero mark.
- Misconduct during a formal examination or in-class task may result in a zero mark being awarded.
- If you will be absent from school for an extended period, for family reasons or because of severe illness or injury, you must request leave from the Principal in advance. If leave is granted you will need to negotiate assessment task completion with each Head Teacher responsible for each course you are studying.
- If you are attending work experience for an extended period of time, such as a week or more, you will need to negotiate assessment task completion with each Head Teacher responsible for each course you are studying.

WHAT DO I DO IF I AM UNHAPPY WITH MY MARK?

- See your classroom teacher **within two school days of receiving your mark** and explain the reason for your unhappiness. Attempt to negotiate a solution.
- If you are still unhappy after the interview, see the Head Teacher of the faculty immediately. If necessary the Head Teacher may refer the problem to the School Assessment Review Panel.

GROUNDINGS FOR APPEAL

- Students may appeal, within the school, against a specific mark according to the conditions above.
- NESAs has three grounds for appeal for students in a course:
 - The weightings in the school's assessment for the course do not correspond with those required by NESAs.
 - The procedures used by the teacher or faculty are not consistent with the school's stated policy.
 - There is a computational or clerical error in determining or recording a mark.

ESSENTIAL ORGANISATION

- Be positive and optimistic.
- Take responsibility for managing your assessment schedule and meeting deadlines.
- Use the calendar/yearly planner at the end of this booklet to record your own assessment tasks.
- Ensure that you are familiar with all relevant sections of this assessment booklet.
- Keep a record of tasks completed for each subject so that you know exactly what proportion of your course assessment has been completed and how much remains.
- Seek feedback from teachers about what you need to do to improve and make further progress.

Policies for Satisfactory Completion of HSC Courses

COURSE COMPLETION CRITERIA

The following course completion criteria refer to both Preliminary and HSC courses.

A student will be considered to have satisfactorily completed a course if, in the principal's view, there is sufficient evidence that the student has:

- followed the course developed or endorsed by NESAs; and
- applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- achieved some or all of the course outcomes.

HSC ASSESSMENT

In addition to any other set tasks and experiences in any HSC course, students must complete HSC assessment tasks that contribute in excess of 50 percent of available marks in courses where school-based assessment marks are submitted.

SATISFACTORY COMPLETION OF AN HSC COURSE

Students studying an HSC course must make a genuine attempt to complete the course requirements. It is a matter for the teacher's professional judgement to determine whether a student has made a genuine attempt to complete the requirements.

For courses where school-based assessment marks are submitted, students must make a genuine attempt at assessment tasks that contribute in excess of 50 percent of the available marks. It is emphasised that completion of assessment tasks worth exactly 50 percent is not sufficient; tasks worth in excess of 50 percent must be attempted. Furthermore, the student must fulfil the course completion criteria.

A course will not be listed on the RoSA unless both of these conditions are met.

In the case of competency-based courses, where a student has not successfully completed any units of competency, it is a matter for the teacher's professional judgement to determine whether the attempts made by the student to complete the course are genuine.

Where students are studying an HSC course that includes a requisite examination, students must sit for and make a genuine attempt at the examination.

If it is determined that a student has not made a genuine attempt to complete the course requirements, the principal must indicate on the appropriate documentation that the course has not been satisfactorily completed.

Students studying VET Industry Curriculum Framework courses must complete the mandatory work placement hours in order to be deemed satisfactory.

SATISFACTORY COMPLETION OF AN HSC VET COURSE

As with all HSC courses, students undertaking VET courses may be deemed to have either completed or not completed course requirements based on the course completion criteria.

The HSC course requirements in a VET course are defined by:

- the HSC indicative hour requirements of the course
- the HSC course structure
- mandatory work placement requirements (where applicable)

- the HSC Requirements and Advice for examinable units of competency in Industry Curriculum Frameworks
- competency-based assessment requirements.

Schools in partnership with an RTO delivering an HSC VET course must ensure that the scope and sequence and program for delivery of the course address all of the HSC course requirements.

The course requirements for HSC VET courses can be found in the syllabus for Industry Curriculum Framework courses or in the course description for VET Board Endorsed Courses.

VET mandatory work placement

The requirement to complete work placement in a VET framework course is also stated in the student declaration on the Confirmation of Entry. This is to be signed by the student and retained by the school.

If a student fails to undertake any mandatory work placement component it may be determined that the student has not made a genuine attempt to complete course requirements. In this case the principal can indicate that the course has not been satisfactorily completed and the student may be issued with a non-completion ('N') determination.

It is possible for the principal to certify, at a later time, that the student has subsequently completed the mandatory requirements and request that the 'N' determination be withdrawn.

WARNINGS OF NON-COMPLETION (N AWARD WARNINGS)

If at any time it appears that a student is at risk of being given an 'N' (non-completion of course requirements) determination in any course, including VET courses, the principal must warn the student as soon as possible and advise the parent or guardian (if the student is under 18 years of age) in writing.

This warning should be given in time for the problem to be corrected and should provide advice about the possible consequences on Higher School Certificate eligibility of an 'N' determination in a course.

The principal must:

- advise the student in writing of the tasks or actions to be undertaken in time for the problem to be corrected;
- advise the parent or guardian in writing (if the student is under 18 years of age);
- request from the student or parent/guardian a written acknowledgement of the warning;
- issue at least one follow-up warning letter if the issue has not been corrected; and
- retain copies of the warning notice(s) and other relevant documentation.

Students who have not complied with the requirements for satisfactory completion of a course at the time of finalising assessments cannot be regarded as having satisfactorily completed the course. The principal will then issue a non-completion determination and advise NESAC via Schools Online.

NON-COMPLETION (N) DETERMINATIONS

NESAC has delegated to principals the authority to determine if students seeking the award of the Higher School Certificate at their school have satisfactorily completed each Board Developed and/or Board Endorsed Course in which they are enrolled in accordance with the requirements issued by NESAC.

Principals therefore will determine if there is sufficient evidence that each student has applied himself or herself with diligence and sustained effort to the set tasks and experiences provided in the course by the school.

For post-compulsory students, principals may determine an appropriate attendance pattern(s) that will allow each student to achieve the outcomes of each course being studied.

While NESAs do not stipulate attendance requirements, principals may determine that, as a result of absence, the course completion criteria may not be met. Clearly, absences will be regarded seriously by principals who must give students early warning of the consequences of such absences. Warning letters must relate the student's absence to the non-completion of course requirements.

'N' determinations may not be made for reasons related to school management or codes of conduct, such as non-payment of fees, participation in prohibited activities, non-wearing of school uniform or misuse of school equipment.

GRANTING LEAVE TO HSC STUDENTS

The principal has discretion in granting leave provided that he or she is satisfied that the reason for the absence is substantial and that the progress of the student towards course outcomes will not be unduly affected.

Where the period of leave requested is extensive, the student must demonstrate to the principal that outcomes in each course will be achieved.

COURSE OUTCOMES

A student:

MA12-1	uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts	MA12-6	applies appropriate differentiation methods to solve problems
MA12-2	models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques	MA12-7	applies the concepts and techniques of indefinite and definite integrals in the solution of problems
MA12-3	applies calculus techniques to model and solve problems	MA12-8	solves problems using appropriate statistical processes
MA12-4	applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems	MA12-9	chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
MA12-5	applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs	MA12-10	constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Total Value (%)	25%	25%	25%	25%	35%

COURSE OUTCOMES

A student:

H1.1	explains the influence of physical, biological, social, historical and economic factors on sustainable agricultural production	H3.3	critically examines the technologies and technological innovations employed in the production and marketing of agricultural products
H2.1	describes the inputs, processes and interactions of plant production systems	H3.4	evaluates the management of the processes in agricultural systems
H2.2	describes the inputs, processes and interactions of animal production systems	H4.1	justifies and applies appropriate experimental techniques, technologies, research methods and data presentation and analysis in relation to agricultural problems and situations
H3.1	assesses the general business principles and decision-making processes involved in sustainable farm management and marketing of farm products	H5.1	evaluates the impact of innovation, ethics and current issues on Australian agricultural systems
H3.2	critically assesses the marketing of a plant OR animal product

| H1.1 analyses the effect of resource management on the wellbeing of individuals, groups, families and communities | H4.2 communicates ideas, debates issues and justifies opinions |
| H2.1 analyses different approaches to parenting and caring relationships | H5.1 proposes management strategies to enable individuals and groups to satisfy their specific needs and to ensure equitable access to resources |
| H2.2 evaluates strategies to contribute to positive relationships and the wellbeing of individuals, groups, families and communities | H5.2 develops strategies for managing multiple roles and demands of family, work and other environments |
| H2.3 critically examines how individual rights and responsibilities in various environments contribute to wellbeing | H6.1 analyses how the empowerment of women and men influences the way they function within society |
| H3.1 analyses the sociocultural factors that lead to special needs of individuals in groups | H6.2 formulates strategic plans that preserve rights, promote responsibilities and establish roles leading to the creation of positive social environments |
| H3.2 evaluates networks available to individuals, groups and families within communities | H7.1 appreciates differences among individuals, groups and families within communities and values their contributions to society |
| H3.3 critically analyses the role of policy and community structures in supporting diversity | H7.2 develops a sense of responsibility for the wellbeing of themselves and others |
| H3.4 critically evaluates the impact of social, legal and technological change on individuals, groups, families and communities | H7.3 appreciates the value of resource management in response to change |
| H4.1 justifies and applies appropriate research methodologies | H7.4 values the place of management in coping with a variety of role expectations |

|----|---|-----|--|
| H1 | describes the nature and justifies the choice of Australia's health priorities | H10 | designs and implements training plans to improve performance |
| H2 | analyses and explains the health status of Australians in terms of current trends and groups most at risk | H11 | designs psychological strategies and nutritional plans in response to individual performance needs |
| H3 | analyses the determinants of health and health inequities | H12 | analyses the influence of sociocultural factors on the way people participate in and value physical activity and sport (Option 2) |
| H4 | argues the case for health promotion based on the Ottawa Charter | H13 | selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3) |
| H5 | explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities | H14 | argues the benefits of health-promoting actions and choices that promote social justice |
| H6 | demonstrates a range of personal health skills that enables them to promote and maintain health (Option 1) | H15 | critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all |
| H7 | explains the relationship between physiology and movement potential | H16 | devises methods of gathering, interpreting and communicating information about health and physical activity concepts |
| H8 | explains how a variety of training approaches and other interventions enhance performance and safety in physical activity | H17 | selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation |
| H9 | explains how movement skill is acquired and appraised | | |

|---|---|
| 1.1 applies the rules and conventions that relate to participation in a range of physical activities | 3.4 composes, performs and appraises movement |
| 1.2 explains the relationship between physical activity, fitness and healthy lifestyle | 3.5 analyses personal health practices |
| 1.3 demonstrates ways to enhance safety in physical activity | 3.6 assesses and responds appropriately to emergency care situations |
| 1.4 investigates and interprets the patterns of participation in sport and physical activity in Australia | 3.7 analyses the impact of professionalism in sport |
| 1.5 critically analyses the factors affecting lifestyle balance and their impact on health status | 4.1 plans strategies to achieve performance goal |
| 1.6 describes administrative procedures that support successful performance outcomes | 4.2 demonstrates leadership skills and a capacity to work cooperatively in movement context |
| 2.1 explains the principles of skill development and training | 4.3 makes strategic plans to overcome the barriers to personal and community health |
| 2.2 analyses the fitness requirements of specific activities | 4.4 demonstrates competence and confidence in movement contexts |
| 2.3 selects and participates in physical activities that meet individual needs, interests and abilities | 4.5 recognises the skills and abilities required to adopt roles that support health, safety and physical activity |
| 2.4 describes how societal influences impact on the nature of sport in Australia | 5.1 accepts responsibility for personal and community health |

Mr & Mrs Smith
1 First Street
Sydney NSW 2000

30 October 2018

Dear Mr and Mrs Smith

RE: OFFICIAL WARNING Non-Completion of a Higher School Certificate Course

I am writing to advise that **John Smith** is in danger of not meeting the Course Completion Criteria for the **Higher School Certificate in English Standard**.

The New South Wales Education and Standards Authority (NESA) requires schools to issue students with official warnings in order to give them the opportunity to redeem themselves. Please regard this letter as the **1st Official Warning we have issued concerning English Standard**.

A minimum of two course specific warnings must be issued prior to a final 'N' Determination being made for a course.

Course Completion Criteria

The satisfactory completion of a course requires principals to have sufficient evidence that the student has:

- a) followed the course developed or endorsed by the board; and
- b) applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- c) achieved some or all of the outcomes.

To date, John has not satisfactorily met **(a, b and c)** of the Course Completion Criteria.

The following table lists those tasks, requirements or outcomes not yet completed or achieved, and/or for which a genuine attempt has not been made. In order for John to satisfy the Course Completion Criteria, the following task requirements or outcomes need to be satisfactorily completed/achieved.

Task Name/Course Requirement/Course Outcome	Percentage Weighting	Date Task Initially Due	Action Required by Student	Date to be Completed by
Assessment task 1 – Multimodal presentation	40%	17/08/2020	Complete and submit this task.	31/08/2018

Please discuss the matter with John and contact the school if further information or clarification is needed.

Yours sincerely,

Mr A Alpha

Class Teacher

Mr B Bravo

Head Teacher Arts

Mr C Charlie

Principal

Please detach this section and have John return it to the school.

Requirements for the satisfactory completion of a Higher School Certificate Course.

I have received the letter dated Thursday, 17th August, 2020 indicating that John is in danger of not satisfactorily completing English Standard.

I am aware that this course may not appear on John's Higher School Certificate Record of Achievement.

I am also aware that the 'N' determination may make my child ineligible for the award of the Higher School Certificate.
